

## General features

Ares sleeve wrapper is suitable for packaging of single or grouped products of all sizes. Available in both automatic and semi-automatic version.

## Specific features

Ares sleeve wrapper is equipped with two film rolls. This machine is available in different versions (from 700 to 3000 mm width) and it can pack products up to 600 mm height. It is possible to have the machine with integrated or separated shrink tunnel.

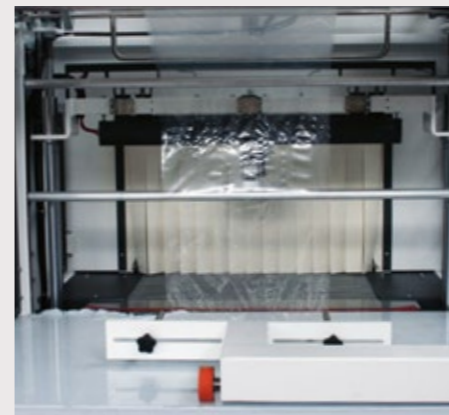

## Details

Compact design, space and energy saving.

The machine can be equipped with in line or 90° conveyor with pusher for higher speed, and for automatic multipack forming.

Semiautomatic version equipped with a manual pusher.
